Safety Code for Excavation Work in Chemical Manufactory

1 Scope

This standard specifies safety requirements of excavation work in chemical manufactory and management of *Excavation Safety Operation Certificate*.

This standard is applicable to excavation work in chemical manufactory.

2 Normative References

The following standards contain provisions which, through reference in this text, constitute provisions of this standard. For dated reference, subsequent amendments to (excluding correction to), or revisions of, any of these publications do not apply. However, the parties to agreements based on this standard are encouraged to investigate the possibility of applying the most recent editions of the standards. For undated references, the latest edition of the normative document referred to applies.

GB 2811	*Safety Helmet*
GB 7059	*Safety Requirements for Portable Wood Ladders*
GB 12142	*Safety Standard for Light-metal Extension Ladders*
GB/T 13869	*General Guide for Safety of Electric User*
GB 16179	*Guidelines for the Use of Safety Signs*
JCJ 46	*Technical Code for Safety of Temporary Electrification on Construction Site*

3 Term and Definition

For the purpose of this standard, the following term and definition apply.

3.1
excavation work
earth excavation, piling, drilling, pit prospecting, ground anchor inserting more than 0.5 m into soil; soil filling or site leveling with construction machines like bulldozer and road roller, and other such work that may impact the concealed facilities underground.

4 Safety Requirements of Excavation Work

4.1 Excavation work shall have *Excavation Safety Operation Certificate* (hereafter referred to as the *Operation Certificate*). It is strictly forbidden to carry out excavation work in the absence of *Operation Certificate*. For the *Operation Certificate*, see Annex A.
